

Lazar Kelić

Front-end React Developer

As a student of Media Design in Education and online course enthusiast, I have been involved in Web Development for more than 2 years. I am proficient in HTML, CSS, JavaScript, React and its libraries. I am experienced in mobile and back-end development through React-Native, MongoDB and NodeJS. I enjoy participating in coding challenges and helping other developers on forums. I approach every project as an opportunity to learn and grow. For more information and to explore my work, please visit my website.
