Lazar Kelic

Frontend/Software Developer

Experienced self-taught Web Developer with expertise in HTML, CSS, Bootstrap, JavaScript, and React. Skilled in both mobile and back-end development using React Native and the MERN Stack. Passionate about continuously improving code efficiency, development speed, and overall quality—whether through optimized functionality, SEO, styling, or performance enhancements. Proven track record of delivering high-quality websites that exceed client expectations. Always seeking inspiration from platforms like Awwwards to push creative boundaries and refine modern web design trends. Dedicated to building efficient, scalable, and visually impactful web solutions.
